Wexford-Missaukee
Career Technical Center
is to prepare students for
career success.'*

WM-CTC Teacher Academy

The WM-CTC Teacher Academy pairs future teachers with mentor teachers to provide students with experiences in all aspects of school-related activities from board and parent/teacher meetings to classroom and professional development experiences. In a process based on interviews, discussions, portfolios of student work, demonstrations, field trips, and actual teaching experiences, students will gain a realistic understanding of teaching as a career. As well, the educational community will have a part in creating a dynamic pool of future teachers to fill local demands. This is a state-approved course aligned to the Entry-Level Standards, Career & Employability Standards, Technical Standards, Pathway Standards, Foundation Standards, and Technology Standards. Students have a total of eight different placements (each a different grade-level) and spend roughly 5 hours each week working with their host teacher.

This program is offered via the Wexford-Missaukee CTC but is delivered via the Traverse Bay ISD.
